SUMMER

INTERNSHIP

PREPARED BY
EDUXEL

INTERNSHIP INSTRUCTION

1. PROJECT ASSIGNMENTS:

- Over the tenure of the 1-month internship, you will be assigned a total of 3 projects that cover various aspects of our software development and AI applications.
- Your task is to complete 3 projects in this 1 month, demonstrating consistent progress and development skills.

2. PROGRESS REPORTS:

- At the end of month, you will receive a link to a progress form.
- The form will prompt you to submit relevant project files and provide a detailed explanation of your approach, challenges faced, and solutions implemented.
- This process allows us to track your progress and offer guidance as needed.

3. INTERNSHIP COMPLETION CRITERIA:

- It is essential to submit each project on time and in accordance with the provided guidelines.
- Failure to submit projects may result in ineligibility for receiving the internship completion certificate.
- To qualify for the completion certificate, a minimum of 2 projects must be successfully submitted.

4. LETTER OF RECOMMENDATION:

- Going above and beyond the minimum requirements is always encouraged.
- Submitting a minimum of 3 projects successfully will not only earn you the completion certificate but also qualify you for a personalized Letter of Recommendation highlighting your achievements during the internship.

5. GITHUB REPOSITORY:

- Each project should have its own dedicated repository on GitHub.
- Naming convention for the repositories: "Project Number [Project Name]."
- This practice helps in organizing and tracking your work, and it's a valuable skill for collaborative coding projects.

6. USE OF AI TOOLS:

- Take advantage of available AI tools such as GPT, BARD AI, and others for both learning purposes and practical project development.
- This is an opportunity to explore the latest technologies and incorporate them into your projects.

7. CODE PLAGIARISM:

- Originality and authenticity are crucial. Complete code plagiarism, where you submit work not your own, is strictly discouraged.
- You are expected to understand and implement solutions independently or collaboratively within the team.

8. UI/UX DESIGN:

- For projects involving UI/UX design, create a comprehensive PDF document.
- This should include your design rationale, wireframes, and any other relevant materials that showcase your thought process and creativity.

10. MONITORING AND EVALUATION:

- Your activities and progress will be closely monitored throughout the internship.
- Regular evaluations will help us provide timely feedback and identify areas where additional support or guidance may be needed.

11. CODING CONTEST:

- A coding contest will be conducted during the internship.
- Your performance will be scored, and the results will be noted for recognition of your coding skills.

12. QUIZ:

- Quiz will be conducted to assess your understanding of the concepts covered during the internship.
- Quiz scores will be noted and considered as part of your overall evaluation.

13. GENERAL RULES:

- Professionalism is expected at all times. This includes punctuality, communication, and collaboration.
- Respect the confidentiality of company information and data.
- Adhere to Nexus Info code of conduct throughout the internship.

14. FEEDBACK AND IMPROVEMENT:

- Constructive feedback will be provided to help you improve your skills and knowledge.
- Act on the feedback received to enhance your performance and make the most out of this learning opportunity.
